

Postgresql

Postgresql 16 to 17

1. Check PostgreSQL version

```
pg_lsclusters
```

2. Stop PostgreSQL

```
pg_dropcluster 17 main --stop
```

3. Remove old cluster

```
pg_lsclusters
```

4. Upgrade PostgreSQL

```
pg_upgradecluster 16 main
```

5. Clean up old packages

```
# pg_dropcluster 16 main
# apt purge postgresql-16 postgresql-client-16
```
